EDUARD ENACHE

Bucharest, Romania | Contact: eduardenache.ro/contact | linkedin.com/in/eduard-florentin-enache | github.com/EduardEnache

Quality Assurance Engineer with hands-on expertise in automation, monitoring, SQL and BI reporting, backed by a background in wireless communications and infrastructure engineering. At Orange Services I build and maintain automated dashboards and reporting pipelines in Power BI, Grafana and SQL/MySQL/MongoDB, improving data quality and driving continuous improvement across teams.

EXPERIENCE

MAY 2025 TO PRESENT

QA ENGINEER

Orange Services, Bucharest

- Automated cross-source reporting and dashboards in Power BI and Grafana, pulling from SQL/MySQL, MongoDB, CSV/Excel and REST APIs.
- Automated OLA breach notifications, ticket completion tracking and 2-hour incident reports, improving accuracy and cutting manual effort.
- Defined the KPI/OLA catalog and built DAX measures and time-intelligence logic for standardized, accurate client-facing reporting.
- Added data validation and anomaly checks that made reporting outputs more consistent and reliable.
- Worked with the NSSO and Problem Management teams on corrective actions and better KPI attainment.
- Worked with IT security teams to protect sensitive data and secure access to reporting platforms.

TOOLS: POWER BI, GRAFANA, SQL, PYTHON, MYSQL, MONGODB, REST APIS, GIT, JIRA

OCT 2023 TO MAY 2025

FRONT OFFICE ENGINEER (SSPO)

Orange Services, Bucharest

- Primary point of contact for clients, managing the flow of technical incident information across channels so issues were resolved on time.
- Introduced automation (email quality checks, ticket follow-up tracking) that reduced departmental workload and raised customer satisfaction.
- Built internal dashboards from high-volume operational data to raise the department's quality of service.
- Translated technical information for non-technical stakeholders across teams.

AUG 2021 TO SEP 2022

CUSTOMER SUPPORT SPECIALIST

Majorel (Bolt UK), Remote

- Remote support for the Bolt UK project, resolving issues for customers and drivers.
- Handled cases from minor inquiries to complex application and financial issues in a proprietary support system.

EDUCATION

2024 TO 2026

MSC MOBILE COMMUNICATIONS

POLITEHNICA Bucharest

GPA 9.14/10. Thesis: "Multiple Access Techniques for 6G Systems (NOMA, RSMA, OAM)", graded 10/10.

2020 TO 2024

BENG TELECOMMUNICATIONS AND COMMUNICATION SYSTEMS

POLITEHNICA Bucharest

Specialization in Telecommunications Technologies and Systems.

HOME LAB

- Self-hosted home lab: a Proxmox hypervisor running an Ubuntu Server VM with a Docker Compose platform, hosting several self-built web applications, exposed securely through Tailscale and Cloudflare.
- Monitoring and observability stack (Prometheus, Grafana, Loki/Promtail, cAdvisor, node-exporter) with a custom Python exporter for external service metrics.
- Python watchdog on a systemd timer that detects unhealthy containers, crash loops, disk/memory pressure and failed units, alerts on Telegram and pings an external dead-man switch.
- Weekly container updates with a health gate and automatic rollback; every service versioned in Git with secret scanning before each commit; scripted disaster-recovery rebuild.

SKILLS

BI AND ANALYTICS
Power BI (Power Query/M, DAX, Service), Grafana

DATABASES
MySQL, MongoDB, PostgreSQL, SQLite

CONTAINERS AND WEB
Docker, Docker Compose, Nginx

NETWORK AND CLOUD
Tailscale, Cloudflare (Tunnel, Pages), Microsoft Azure, Vercel, Render

PROGRAMMING
Python, Bash, JavaScript/TypeScript, Java, MATLAB, Verilog, C#, C++

DATA AND ENGINEERING
SQL, Python, ETL, REST APIs, Data modeling, Data quality rules

LINUX AND SYSTEMS
Ubuntu Server, Proxmox VE, systemd, Bash, SSH

OBSERVABILITY
Prometheus, Grafana, Loki, Promtail, cAdvisor, node-exporter

TOOLING
Git, GitHub, Jira

CERTIFICATIONS

Microsoft Azure AI: Implementations and Solutions using AI; AI Fluency: AI Capabilities and Limitations; Change Management: Dealing with Change; Cloud Fundamentals; MATLAB Onramp; Cambridge English Level 2 Certificate in ESOL International; ECDL;

SUMMITS AND WORKSHOPS
Future Summit: AI, RPA Developer Workshop, PRISME.AI Hackathon, Trainer for GenAI, Manager and Ops Programme (Orange), Critical Thinking with AI, Prompt Engineering

ROMANIAN: NATIVE / ENGLISH: NATIVE/BILINGUAL, CAMBRIDGE C2
